CCD547	Wonder White (Δ06-1)	\$28.50	\$50	\$230	\$420	\$760

Dry Slip Clays

Dry slip blends do not include the Sodium Silicate, Soda Ash, or Barium Carbonate that may be necessary to properly mix the slips. Please see page 10 for those products and mixing instructions.

Six-Bag Blend (Lowfire)

300 pounds of slip mix makes about 30 liquid gallons. Recipes differ only in which specific talc, ball clay or flux they use. Six-Bag Blend is a 2100-pound ton at 7 batches of 300 pounds per ton. Please call for price quotes on orders of five tons or more or custom clay blends. **Bisque fire to cone 04 and Glaze fire to cone 05.**

CS130	White Cast Six-Bag	
	1 Batch	\$103.60
	Ton (x7 batches)	\$659.25

One-Bag Blend (Lowfire)

50 pounds of slip mix makes about 5 liquid gallons. This is exactly like the Six-Bag blend, but we ran the materials through a ribbon blender to mix them together like a giant cake mix and bagged the blend into 50-pound units. We can make custom blends, too. **Bisque fire to cone 04 and Glaze fire to cone 05.**

CB130	White Cast Pre-Blend	
	50lb bag	\$30.00
	Ton (40 bags)	\$800.00

Natural White Stoneware (Δ5-6)

50 pounds of slip mix makes about 5 liquid gallons. Our Natural White can be tinted with your choice of Mason Stains or other colorants. It's also the same formula as our G-Mix 6 clay: they are fully compatible for attachments, slip trailing or writing, etc. ***New formula* improved for faster, firmer casting. Best when used with Darvan 811. Bisque fire to cone 04 and Glaze fire to cone 6.**

SSD600	Dry Stoneware Slip	
	50lb bag	\$28.50
	100 lbs	\$52.00
	500 lbs	\$235.00
	1000 lbs	\$430.00
	2000 lbs	\$780.00
