\* Note: these items bear a caution label

## Foundation Glazes offer...

A broad range of colors from primary to designer and decorator hues, while the soft translucence of Foundation Sheers adds a tint of color to your work so surface texture or design work shows through. These glazes go on smoothly and dry quickly, so you can fire them the same day you apply them.

Foundations marked with an asterisk "\*" bear Caution labels. Unmarked Foundations are certified nontoxic.

When you buy...	1-5 @	6+ @
FN001-306 .....	\$12.15 .....	\$9.12
* FN215, FN217-219 .....	\$13.90.....	\$10.43

**You can mix Foundation glazes to create new colors so you get even more choices!**

## Amaco Opalescent ..

AMACO Opalescent Glazes may be used on any low-fire ^05-^06 clay but red clay bodies will show the most opalescence and the most interesting textures. These Opalescent Glazes fire to a high gloss finish. You get the best results when you apply three to four applications of the glaze. When used on pieces that have texture, the glaze flows thin on raised areas and is thick in recessed areas, giving an added dimension on the surface.

These glazes are foodsafe but there is a Safety Warning: Tableware producers must test all finished ware to establish dinnerware status, due to possible variations in firing temperature and contamination.
