

# GEX EXTRUDER DIES

## Handle Ribbons

## Solid Coils & Ropes

## CLAY PUG MILLS

Clay in plastic bags tends to dry unevenly. A thorough wedging can even out the dry spots, and realign the clay particles to make the clay easier to use. Thorough wedging might not be so easy to achieve, however, if you're in a production studio or large school program. If you use a lot of clay, let these powerful machines do the "dirty work" of preparing your clay for you. Both the Peter Puggger and Shimpo machines have vacuum options you can add later.

Call us to talk about your options with pug mills!  
We'd be happy to help match your needs to the right machine.

### Peter Puggger VPM9 Power Wedger

VPM9.....Power Wedger 9 ..... \$3799.00

### Nidek/Shimpo PM071 Pug Mill

PM071.....Pugmill ..... \$2730.00

GEX SINGLE DIES ..... \$8.00 ea

### Handle Shapes

GEXN1.....#1 (1-1/8 x 3/8")  
GEXN2.....#2 (7/8 x 3/8")  
GEXN3.....#3 (1-5/16 x 1/4")  
GEXN4.....#4 (1-7/16 x 3/8")  
GEXN5.....#5 (7/8 x 1/2")  
GEXN6.....#6 (1-1/16 x 3/8")  
GEXN7.....#7 (1-3/16 x 7/16")  
GEXN8.....#8 (1-1/16 x 3/8")  
GEXNS.....(set of 8) ..... \$48.00

### Solid Ropes

GEXR1.....4-pt Rope 1-5/8"w  
GEXR2.....4-pt Rope 1-1/16"w  
GEXR3.....3-pt Rope 1-3/8"w  
GEXR4.....3-pt Rope 15/16"w  
GEXRS.....(set of 4) ..... \$24.00

### Handbuilders' Coils

GEXC1 .....1-1/2 x 13/16"  
GEXC2 .....1-3/16 x 5/8"  
GEXC3 .....1-3/16 x 5/8"
