Glaze Sample Set

PG699 \$79.95
Stoneware Gloss Glazes
(4oz each of 35 colors)

Our samples were fired to cone 6 on Georgies' G-Mix 6 clay. Your choice of clay can make a difference in fired results; cone 6 glazes are interactive with clay. Our samples are fired in Skutt computerized kilns to cone 6 at medium speed with no hold time at peak temperature.

Stoneware Gloss Glazes (Cone 6)

PG646	Semi-Transparent Satin	\$4.00	\$10.50	\$49.30	\$130.05

PG601 • Perfect White

Glossy and opaque. A stable white glaze to use as a base, a liner or an overlap with other glazes. Can be used as a Δ6 majolica base for decoration.

PG602 • Incredible Black

Glossy and opaque mottled black with a wide range of uses. By itself, the blue, khaki and warm brown breaking hues bounce from a black field. Incredible as an interactive glaze! Creates unique combinations with most glazes in our line.

PG607 • Nassau Blue

Glossy and opaque mottled blue. Medium-to-light blue that offers great interest by itself or plays well with others.

PG608 • Cobalt Blue

Glossy and semi-opaque. A bright, true cobalt blue with hints of mottling when applied thicker.

PG611 • Grape

Glossy and semi-opaque. A rosy purple for a warm eggplant quality.

PG614 • Grass Green

Glossy and semi-transparent. One of our most popular glazes, this one mottles green when thin to a sea of icy deep blues.

PG615 • Celadon Green

Glossy and semi-transparent. A perennial favorite: warm blue-grey-green that

rewards your artistry with the richness of a true celadon. It's easy to apply brushstroke designs either over or under this stable glaze. Offers a mottled light blue fleck when applied thicker or in dimensional areas.

PG616 • Buckwheat

Glossy and opaque, and fun by itself or in combination. Warm cream color with breaking tones that border on purplish. Edges break to golden tones.

PG617 • Fiesta Yellow

Gloss and opaque. The sunniest of yellows, Fiesta Yellow satisfies that "primary" color urge toward a true repeatable yellow.
