

**SPEEDBALL GLAZES** ... are an artist-led project developed in partnership with ceramic artist, Nancy Sowder, highlighting how artists shape Speedball's development. This line consists of 30 glazes that create magical mottling and reduction like effects fired at cone 5/6. Get eye-catching results when using each glaze on their own, or try layering colors for even more unique variation! We recommend that you use a normal cooling cycle across all colors to ensure consistent results. All colors are fired on Laguna B-Mix clays at cone 6. Sold in Pints only.

SB2180..... **Speedball Glaze Kit** ..... \$74.99  
with 12 selected \*kit colors in 4 oz containers ... \$99.00 MSRP

SB2100	.....Blue Tiger's Eye .....	\$18.00

## MAYCO STONEWARE GLOSS GLAZES

Mayco's Stoneware Gloss glazes produce bright, opaque colors with a high gloss finish. Stoneware Gloss glazes can be used in design, all over coverage and are the ideal product for intermixability at mid-range temperatures. The integrity of your design will remain unchanged as these glazes are incredibly stable and will not move or combine with surrounding colors. As with all of the Stoneware Glazes, these Gloss glazes work well on a variety of clay bodies and have a firing range from cone 5 to cone 10, some colors change slightly at higher temperatures, so test!

SW501	..... White Gloss .....	\$15.25
