CONE 06 GLAZES

Clear Glaze Dipping Tips

- Store dipping glazes in a cool, dry place away from heat and vibration.
- When dipping, make sure your fingers are dry so you can minimize or prevent smearing.
- While dipping, re-stir the glaze about every 15-20 minutes to maintain proper consistency.
- Keep the container tightly closed when not in use. Evaporation may cause some thickening of the glaze, which can affect its performance on your work.

DUNCAN CLEAR GLAZES

Brushing Glazes

Pure Brilliance Clear

This is a truly high-performance nontoxic glaze with clear gloss shine and forgiving performance.

When you buy ...	1-5 @	6-11 @	12+ @

MAYCO CLEAR GLAZES

Brushing Glazes

Natural Clear (S2101) & Matte Transparent (C300). S2101 is a clean, glossy clear glaze and C300 produces a matte sheen but will turn glossy at higher temperatures. Both are nontoxic, lead-free, dinnerware-safe, and overglaze-compatible. Some underglaze colors may change due to chemical interactions with the glaze.

When you buy ...	1-5 @	6-11 @	12+ @
S2101P clear Pint	\$10.50	\$8.40	\$7.88
C300P matte Pint	\$10.50	\$8.40	\$7.88

S2101G..... clear	Gallon	\$38.50 ea
C300G..... matte	Gallon	\$38.50 ea

Dipping Glazes

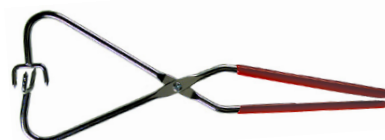

The Clear One (NT-CLR) - An excellent performer and nontoxic. For use with cone 05-06 glazes.

When you buy ...	1-5 @	6+ @
NT-CLR 3 Gallon	\$90.00	\$72.00

GLAZE DIPPING TONGS

Dipping Tongs from Kemper Tools are for dipping bisque ceramic pieces directly into a glaze. This tool has four sharp gripping points, so the tool makes minimal contact, allowing the glaze to cover any marks the tongs may leave. The plastic handles give you a firm grip, and can let you balance pieces of any shape and size.
