MAYCO FOUNDATION

A broad range of colors from primary to designer and decorator hues, while the soft translucence of Foundation Sheers adds a tint of color to your work so surface texture or design work shows through. These glazes go on smoothly and dry quickly, so you can fire them the same day you apply them. Foundation glazes are certified nontoxic. Sold in 4oz and Pints. Items marked in **RED** have a **CL Certified Health Caution Label**

FN304..... Black Velvet

AMACO OPALESCENT

AMACO Opalescent Glazes may be used on any low-fire ^05 - ^06 clay but red clay bodies will show the most opalescence and the most interesting textures. These Opalescent Glazes fire to a high gloss finish. You get the best results when you apply three to four coats of the glaze. When used on pieces that have texture, the glaze flows thin on raised areas and is thick in recessed areas, giving an added dimension on the surface. These glazes are foodsafe but there is a Safety Warning: Tableware producers must test all finished ware to establish dinnerware status, due to possible variations in firing temperature and contamination. All glazes are certified AP (all purpose) except those marked in red (see below).

Pints only \$18.75 ea
