

HANDHELD EXTRUDER

THE SHIMPO HANDHELD EXTRUDER ...

is the most complete, easy-to-use hand extruder on the market. It's perfect for ribbon handles, sculptural parts, and small shape runs for a thousand other uses. This extruder comes fully assembled, ready to use, and equipped with 14 solid die shapes. All parts are fully replaceable in case of damage or defect. It's easy to clean, too: all you need is warm water! You'll find many uses for this exceptionally rugged small extruder in your studio or classroom. Full instructions, parts list and adjustment tool are included with the extruder.

- 9 x 2" aluminum barrel
- Quick-release end cap
- One-year warranty on parts.
- Comes with 6 dies + 8 additional standard dies from Georgies
- Hollow die brace (includes bonus dies) sold separately.
- Max capacity about 2½ lbs of clay.

CLAY PUG MILLS

Clay in plastic bags tends to dry unevenly. A thorough wedging can even out the dry spots, and realign the clay particles to make the clay easier to use. Thorough wedging might not be so easy to achieve, however, if you're in a production studio or large school program. If you use a lot of clay, let these powerful machines do the "dirty work" of preparing your clay for you.
