Color has more options:

**Split Compliment**: Using any color with 2 colors on each side of it's compliment.

**Triad**: Using 3 colors equally spaced from each other on the color wheel.

**Tetrad**: Using a combination of 4 colors on the wheel that are 2 sets of compliments.

**Key Color**: Predominant color in the color scheme.

Seeing these colors side by side or triads, it's easy to see when a color is dominant or recessive - helping to select it's place on your ceramic work.

This excursion in color was begun using our new glaze colors. Along the way it grew to include some of our existing glazes... this is only a beginning - there is so much more to explore!
