

SATIN GLAZES

These glazes move very little during firing, which makes them ideally suited for creative design work, majolica and controlled glazing techniques. All are overglaze compatible and food-safe.

SN351	<u>1-5@</u>	<u>6-11@</u>	<u>12+@</u>
4oz	\$2.70	\$2.03	\$1.62

COURTYARD GLAZES

These unique, self-antiquing, lead-free matte glazes give in varied color with unique results in every firing. They work well with Concepts underglazes too.
