

ELEMENTS GLAZES

Elements Glazes are gorgeous natural earth tones in nontoxic formulas. Surfaces vary from gloss to matte, with subtle variations in each color: no two pieces will ever be the same!

Elements Chunkies (the 200 series) feature base glazes from the Elements line with the addition of crystals. Their variations can be influenced by number of coats, combinations, surface textures, kiln atmosphere and temperatures. These glazes may move and flow during firing! Chunkies should not be used on surfaces that contact food or drink because of their fired surface characteristics.

Elements marked with an asterisk* bear **Caution** labels. Unmarked Elements are certified nontoxic.

COBBLESTONE GLAZES

SG201 Black and **SG202 White** are nontoxic textural glazes that make raised irregular chip-like textures when applied over any nontoxic glaze before the glaze firing. Heavier application leads to larger chip sizes. Use only on the outside of food or drink containers.

SG201 or SG202 (4oz) 1-5@ 6-11@ 12+@
