## DIMENSIONAL GLAZES

French Dimensions and Designer Liners are "puffy glazes" for raised design effects such as dots, stripes, squiggles, and outlines. You can use them over or under nonmoving glazes, and over or under each other. French Dimensions and Designer Liners are all food-safe, nontoxic, and nonhazardous when used under normal conditions. Even so, they may not be practical for use on surfaces in contact with food or drink.

| <b>SG405</b> ... Green | <b>SG410</b> ... Bright Blue  |

## MAYCO POTTERY CASCADES

These glazes produce special effects when used in combination with other nontoxic glazes. White Cascade intermingles with the other glazes, introducing pure white and blending with the color. Clear Cascade produces a flowing effect and allows the color of the base glaze to show unaltered -- but in motion. Use them over or under any nontoxic glazes to experiment and see what you get.

4oz jar ..... 1-5 @ ..... 6-11 @ ..... 12+ @

## MAYCO SCULPTING MEDIUM

SG501 Sculpting Medium is a dimensional "glaze" that produces a white, raised surface. Use it to add structured design elements to your work using stencils, lace and stamps. The recommended application thickness is 1/16" to 1/8".

SG501

4oz jar ..... 1-5 @ ..... 6-11 @ ..... 12+ @

 Pint ..... \$12.45 ..... \$9.34 ..... \$8.10

## FIRED SNOW

Fired Snow adds dimensional texture that simulates the look of snow when fired. And it's not just for Christmas decorations any more!
