

**Handle Ribbons**

**Solid Colls & Ropes**

**CLAY PUG MILLS**

Clay in plastic bags tends to dry unevenly. A thorough wedging can even out the dry spots, and realign the clay particles to make the clay easier to use. Thorough wedging might not be so easy to achieve, however, if you're in a production studio or large school program. If you use a lot of clay, let these powerful machines do the "dirty work" of preparing your clay for you. Both the Peter Pugger and Shimpo machines have **vacuum** options you can add later.

Call us to talk about your options with pug mills!  
We'd be happy to help match your needs to the right machine.

**Peter Pugger VPM9 Power Wedger**

VPM9 ..... Power Wedger 9 ..... \$3554.00

**Shimpo PM071 Pug Mill**

VPM9 ..... Power Wedger 9 ..... \$2575.00

**GEX SINGLE DIES • \$8.00 EA**

**Handle Shapes**

- GEXN1 .... #1 (1-1/8 x 3/8")
- GEXN2 .... #2 (7/8 x 3/8")
- GEXN3 .... #3 (1-5/16 x 1/4")
- GEXN4 .... #4 (1-7/16 x 3/8")
- GEXN5 .... #5 (7/8 x 1/2")
- GEXN6 .... #6 (1-1/16 x 3/8")
- GEXN7 .... #7 (1-3/16 x 7/16")
- GEXN8 .... #8 (1-1/16 x 3/8")
- GEXNS .... All 8 ..... \$48.00

**Handbuilders' Colls**

- GEXC1 .... 1-1/2 x 13/16"
- GEXC2 .... 1-3/16 x 5/8"
- GEXC3 .... 1-3/16 x 5/8"

**Solid Ropes**

- GEXR1 .... 4-pt Rope 1-5/8" w
- GEXR2 .... 4-pt Rope 1-1/16" w
- GEXR3 .... 3-pt Rope 1-3/8" w
- GEXR4 .... 3-pt Rope 15/16" w
- GEXRS .... All 4 ..... \$24.00
