Air-Dry Self-Hardening Clays

Marblex and its terra cotta counterpart, Mexican Pottery clay, are moist and ready to use for anything from sculpting to wheelthrowing. Knead them to increase their plasticity before use. Allow your finished pieces to dry slowly and evenly on all sides at room temperature, and away from heat, until hard. When completely dry, finished pieces are durable but not waterproof. After decorating, it's a good idea to coat them shellac or varnish to seal it and make it water-resistant. **DO NOT FIRE. NEVER USE FOR FUNCTIONAL WARE.**

Premixed Paper Maches

CLAYCRETE (CC1A) paper mache is pure virgin paper pulp, ready to mix and use.
SCULPTAMOLD (SC3A) mache models like clay and sets up plaster-hard in 30 minutes.

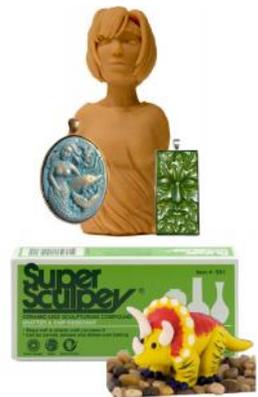

CC1A Claycrete, 1lb \$8.95
 SC3A Sculptamold, 3lb \$8.60

Quantity discounts apply on multiples of the same item.

Sculpey Products

Original Sculpey is soft and pliable, and it will not dry out when exposed to air. After baking it can be sanded, drilled, carved and painted with water-based acrylic paints. Super Sculpey features fine tooling and detailing workability. It doesn't "fill in" after tooling, so it's frequently used for prototypes intended for moldmaking.

Original Sculpey

CL305 White, 1¾lb	\$12.00
CL306 White, 8lb	\$49.99
CL307 White, 24lb	\$139.99
CL305T Terra Cotta, 1¾lb ...	\$12.00

Super Sculpey

CL311 1 pound	\$14.00
CL312 8 pounds	\$99.99
CL313 24 pounds	\$249.99

Sculpey Multi-Pack

Ten bright, vivid colors.

CL111 1lb package	\$18.00
