

# Creating & Enhancing your Ceramic Surface

Using your choice of Interactive Pigments, Glazes or Combo's

With all the flowers shown on this page the pigments were applied to ^04 bisque and wiped back, leaving the pigment in the recess' .

Try your favorite glaze(s) over a variety of pigments. Here we show our GLW12 Eggshell and PG633 Aegean Blue Green (a soft celadon). The chemistry of the glaze, your choice of clay body and the pigment will be unique to you !

Interactive Pigments wiped back under 8 of our New Glazes (see key at the bottom of the page )

IP202  
Tree Bark

IP203  
Golden Straw

IP205  
Autumn Foliage

IP206  
Surf & Sand

IP207  
Steel Black

IP208  
Winter Storm

IP211  
Wormwood

IP212  
Indigo
