

Teacher In-Service Day

**Friday, October 12
at Wilsonville
High School**

Georgies will be there, with a booth as well as a free workshop. If you've never tried clay before, see how much fun it can be!

School Deliveries

These are always tough at the beginning of each school year. As you start school trying to figure out what you need and what you have left over from last year, we are (happily!) deluged with your orders. We have only 2 delivery drivers and they put in long overtime hours getting your orders to you. We do our best to get you all the things you need in a timely manner, but if it's at all possible, please think ahead and understand you probably aren't the only one with no clay in the classroom.

We deliver from Portland and Eugene, and the same delivery charges apply:

Under 2000 pounds: **\$40.00**
2000 pounds & up: **\$60.00**

The Last Paper Newsletter

Do you want to receive more news and information from us? We are very careful with your email information: we don't share our mailing lists with anyone. On the first of each month, we send out a general newsletter with monthly sales and other information. Once in a while we're alerted to special events and pass this information on in special email news, but it's rare. So, if you would like to receive our class schedules and our sales, we need either your personal or school email address. Contact us with this info by phone or the web. Just look for the email icon to send us a message, or sign up on the Newsletters page.

How-To Tips Online

- How much clay do I need...?
- Oh no, my glaze is too thick, help!
- Uh-oh, my glazes are frozen. What now?

This fall you'll find the answers to these and many other common questions on our website in the new "Tips of the Trade" section, a prominent feature on our redesigned site. In the meantime, we recommend...

Ceramic Arts Daily!

www.ceramicartsdaily.org

This website is packed with useful tips, techniques, and video clips. It's free and you can sign up online. It lands in your email three times a week, so look, delete, and save the ones you want. This short video from Linda Arbuckle is really good!
