Calla Lily

Calla Lillies - colors used:

PG630 Zinc-Free Clear
PG632 Blue Ink
PG633 Pacific Blue-Green
PG634 Scotch Pine
PG635 Black Patent
PG636 Aegean Blue-Green
PG637 Tutu Pink
PG638 Blue Violet
PG639 Hot Orchid
PG643 Gold Satin (discontinued)

Apply 2 coats of PG630 ZINC-FREE CLEAR to your bisque. Begin placing your design with the lightest colors first; PG633 PACIFIC BLUE-GREEN is washed over the corner and loosely brushed to indicate leaf placement. Next add your brushstrokes of PG637 TUTU PINK to begin defining the placement and form of your Calla Lily flowers. The Lillies are enhanced with a stroke of PG639 HOT ORCHID and the depth of the interior is a stroke of PG638 BLUE VIOLET. The leaves are shaded with PG634 SCOTCH PINE. Dots of PG637 TUTU PINK and PG643 GOLD SATIN (discontinued) are placed in the foreground to indicate low bedding flowers. PG635 BLACK PATENT is used as the final shadow and liner color. For a finer line, you can use MAYCO's EZ012 Black underglaze.

Heather - colors used:

PG630 Zinc-Free Clear
PG631 Gold Dust (discontinued)
PG632 Blue Ink
PG634 Scotch Pine
PG635 Black Patent
PG636 Aegean Blue-Green
PG638 Blue Violet
PG640 Lavender Lupin
GS405 Rouge Red Satin

Begin by brushing 2 smooth coats of PG630 ZINC-FREE CLEAR onto your bisque. If this appears less than smooth, you can 'finger sand' carefully to even out the surface. Starting with your lightest colors, lay in some dancing spikes of PG640 LAVENDER LUPIN followed by PG632 BLUE INK, which creates the shadowy depth of bunched flowers. With PG634 SCOTCH PINE, pull up the blades of the foliage that form the back drop for the heather. Loosely flow PG631 GOLD DUST (discontinued) into the background and close foreground. With the back end of your brush, pick and 'dot' PG638 BLUE VIOLET into the areas of PG640 LAVENDER LUPIN that you first created, let them wave and wander a bit! Lightly scrub a few shadows beneath the lavender with PG635 BLACK PATENT. And lastly, just for a bit of fun, add a few stalks (stroke a line with a few dots) of GS405 ROUGE RED SATIN as seen toward the top and side.

Heather
